Mr. Perkins has been employed by the Peoples Drug Co.. 7th and K streets northwest, Washington, D. C., for the past ten years and is known to hundreds of people who patronize this busy store. In reciting the facts of his experience, Mr. Perking said:

2 "Well, sir, I have put Tanlac to test myself now and am simply astonished at the results. My whole life has been spent in the drug and medicine business. I have sold them for the manufacturer and jobber and have had ten years of it behind the counter right here in Washington. I have gold and hnadled them all, know about their claims and merits, and it is only justice to say that Tanlac is one that defies comparison.

"Listen to this: Just a few weeks ago I commenced to go down hill. I just seemed to plunge from perfect health and strength right into a state of sickness and weakness. My whole system seemed out of order. My stomach went wrong. I lost all desire for food and was seating searcely anything. My l lost all desire for food and was eating scarcely anything. My liver was torpid and sluggish. I lost all my strength and my showed it. I was just dragging along, had no energy, and simply had to force myself to duty. I tried the usual remedies that were supposed to fit my case, but they all went wide of the mark. Seeing so many people buying Tanlac and hearing their expressions of praise and confidence in the medicine. I concluded to give it a trial myself. My system responded to the treatment like magic. It corrected my troubles and put me right back in tip-top condition, and did not waste any time about it. My waste any time about it. My stomach and appetite are as good a complete return health and strength. can say from my own experience
that Tanlac will do all that is

#### INTEREST WANES IN MT. RAINIER CASE

Mount Rainlers interest in its sensational "acid throwing" case is on the wane. Most of those in the little hamlet believe that Mrs. Nace Brooke, central figure in the case, will stick to her latest story that her blindness was caused by an accident, and not, as she had first stated, by a woman throwing acid into her eyes.

Should Mrs. Brooke stand by her story, the authorities have no alternative but to free the three Baiimoreans now held on bond charged with assault to kill.

At a meeting Tuesday night members of Mount Rainier Citizens' Association denied that representatives of the organization had protested against further prosecution of the "acid throwing" case. The following statement was is-

sued last night by Herbert W. Blandy, secretary of the MountRaiing any mention whatever of the name of the citizen's association. The motion which resulted in in-structions to the secretary to request the paper to publish a deniol practically amounted to a resolution of warning against the members of nier Citizens' Association: "The consensus of opinion in the

association, as evidenced from va-rious talks made Tuesday night, was that whoever did any talking to the newspaper representative was outside of his rights in mak-the association conveying the incorrect impression when talking for To Revive Racing publication that their individual ideas would be taken as the expression of the position occupied by the association itself."
